BOLERO FIRST AT A HUNDRED TO ONE. A STARTLING SURPRISE IN THE LAST RACE-

THE SLAUGHTER OF FAVORITES. Although the air was cold and raw and the wind cut to the bone, a large number of people went to the Linden races yesterday. No less than seventy-five bookmakers occupied stands in the ring, and the meeting was opened with every sign of pros-

race with the betting 100 to 1 against him.
Kingston, first choice, at 7 to 5, and Correction. ho was next in demand, were both beaten in the who was the trace. Loantaka winning by a head from Der-farzilla, who beat Kingston by half a length.

The second race was a selling affair for twoyear-olds. Fatality, a filly that cost her owners, McCafferty & Wishard, 38,600, was entered to be said for \$500, which gave her only 97 pounds to carry. She was made a hot favorite, and led all the way, winning in a gallop by a length, Black Hawk second, four lengths before Dr. Garnett. Fatality was run up to \$3,005 and was bought in. ne bidder-up was said to represent a well-known

bookmaker from the West.
Michael F. Dwyer backed Banquet in the third race to 3 to 5, but Sir Matthew, at 10 to 1, beat uset by a head. Soundmore was third, a

Banquet by a head. Soundmore was third, a length away.

In the fourth race, Marshall, the favorite, ran in the ruck throughout, and finished a poor fifth. Reginald won under a pull, the Clio colt second, and Jordan third.

Marcus Daly's colors scored their second victory in the fifth race, with Sam Lucas, at 8 to 1, who, in a stirring finish, won by a head, Figaro, the favorite, second, five lengths before Neiglen.

If public form is a factor in racing, Little Billy seemed to have first mortgage on the last race, yet the wise ones saw that he was entered to be sold for \$600, which is not one-sixth of his value. This, with a recollection of the bidding up of Fatality, caused many to refrain from backing him. The speed which he had shown in previous races was missing, and he was in the ruck from start to finish. The winner was that rogue Bolero. The bookmakers laid 100 to 1 against him. Bolero jumged into the lead at the start and was never headed, winning by five lengths, Bess McDuff second, a head before The Ironmaster.

NOTES ON TURF AFFAIRS.

The meeting at Linden Park begon yesterday, with the prospect of being the most profitable meeting of the sea prospect of being the most profitable meeting of the sea-son, if yesterday's standard is kept up until the end. The crowd con-isted of a mixture from all the different classes of turfinen. There were seventy-four books in line to attend to the thousands of persons who were anxious to bet their money on the many sure things that were typed to win the races. The officials of the more pretyped to win the races. The officials of the more pre-tentious racing associations who were present realized what harmony between racing a sociations can do to benefit the sport. There were no conflicts to decrease the attendance and to cause dissatisfaction in the betting. The track was fast, so that Captain Habcock's reputation

to be uncertain. One of the heaviest pluncers on the term threatens to sell out his stable. "I can do better on the outside," he says, "as there are but few jockeys that ride for their employers. I wish that the 1-2-3 books were abolished. If anybody wants to know what is killing racing I can tell them it is the methods of some of the 1-2-3 bookmakers. Just come down to the turn and I will show you at least six jockeys that are riding for burth place or work?"

DENOUNCED BY A DEMOCRAT.

SCATHING CRITICISM OF THE NEW-JERSEY RACETRACK LEGISLATURE, GOVERNOR

WERTS AND SENATOR SMITH. Dr. S. A. Farrand, head master of the Newark Academy, had acted with the Democratic party, but the scandalous racetrack laws passed by the Democratic Legislature in New-Jersey last winter have disgusted and incensed him with the party At a large meeting in the High Street Presbyterian Church at Newark on Sunday night Dr. Farrand was one of the principal speakers. He began his address by reading a list of the Senators and Rep-resentatives who had voted for the passage of the bills legalizing racetrack betting. The members from Newark, he said, had simply done as they were ordered by the bosses. Those miserable creatures, he added, had simply done as they were told. He charged the direct responsibility for the whole matter on Governor Werts. He had vetoed the bill, it was true, but the veto had not been a sincere one. He had sent in the veto immediately the bills were submitted to him, and then the Legislature had passed them again over his veto and adjourned. It had been in the Governor's power to delay action upon the bill until the people who were preparing the protests could get to Trenton. Had he held back his veto until then the Legislature would never have dared to pass the bills again. Although he had promised that the people should have a full hearing, he had vetoed the bills as quickly as he could, and before the protestors could get to Trenton the mischlef had been done. "Governor Werts well knew what he was doing," continued Dr. Farrand.

There was another man whom Dr. Farrand held responsible. He was United States Senator James Smith, jr. "It is true that he wasn't in the Legislature." said Dr. Farrand, "but he is the Democratic boss of this section, and as one of the Democratic bosses of the State his power was such that if he had said stop, it would have stopped. Senator Smith holds the controlling influence over all the State. This thing was done by a political organization. It is a Democratic measure, fathered organization. It is a Democratic measure, fathered by the Democratic bosses and passed by a Democratic Legislature. I am not a Republican, and I can say this without fear of being accused of partisan prejudice. We must all go to the polls, it is utterly impossible for you to give your vote to the Democratic candidate for the Legislature or for Sheriff. The Democratic party camoot nominate an independent man. This corruption means the destruction of our institutions. Once in three years the State goes into National politics by electing a United Stater Senator. But it never dables in local politics. No doubt the Republicans would repeal the racetrack laws."

The speaker said that back of the racetrack interest was the liquor-store interest. Every effort should be made to send men to the Legislature who could be depended upon to wipe the racetrack laws from the statute books of the State.

MR. DANA GIVES SOME VALUABLE SUGGESTIONS AND ADVISES THEM TO READ THE BIBLE, SHAKESPEARE AND MILION.

From Charles A. Dana's lecture on "Journalism" at Union College.) After a Enowiedge of the English language comes, of course, in regular order, the practice, the cultivation of the ability to use it, the development of that art which in its latest form we call stric, and which distinguishes one writer from another. This style is something of such ent, intangible nature that it is difficult to tell in irces of the language, all applied together in the construction of sentences. I suppose that is what makes yie. It is a very precious gift, but it is not a gift that an always be acquired by practice or by study. It may be added that certainly in its highest perfection

it can never be acquired by practics. I do not believe, for in-tance, that everybody who should endeavor to ac-quire such a style as the late Dr. Channing possessed could succeed in doing so. He was a famous write hity years ago in Boston, and his style is of the mo-beautiful and remarkable character. As a specimen of . It me suggest to you his essay on Nanol-on Bonaparte hat was, perhaps, the very best of the critical analyse of Napoleon that succeeded to the period of Napoleon worship, which had run all over the world. Channing's style was sweet, pure and delightful, without having gard without entire respect and admiration.

Another example of a very beautiful and admirable tyle which is well worth study is that of Nathanie Hawthorne. In his writings we are charmed with th cause with all its suggestiveness it is perfectly

and as that is a sort of merchandise which scems to be always in demand, and to bring pretty fair prices, why, if you have a talent in that direction, go ahead. You may make a good living. I have no doubt; but you will not play any mementous part upon the stage of public affairs,

and that is the sphere of activity which the generous-hearted and cotrageous youth looks forward to. Now. Mr. Jreeley is my greek exemplar in journalism. He thought a newspaper man was of little use who did not know just the number of votes in every township in the State of New-York, and in every voting precinct, and who could not tell whether the returns from the Second District of Pound Ridge, in Westchester County, were correctly reported or not without sending to the place to find out how many votes had really been cast. That was one of his great points of distinction and success; but I would not advise you to labor after that sort of knowlsable, a few books. Almost all books have their There is perhaps no book whose style is more suggestive and more instructive, from which you learn more directly that sublime simplicity which never ox-

policy, for a cause, so much as the right passage of fiely Scripture! (Applause.)

Then, everybody who is going to practise the news-paper profession eight to knew Shakespeare. He is the chief master of English speech. He is the head of own game will enable bim to win easily in the end.

asking for the repeal of the "obnoxious features such restrictions upon it as are consistent with impartial justice, with the character and good name impartial justice, with the character and good name of the United States, and with treaty obligations. But it earnestly objects to the provisions contained in Sections 2-6, as, in its judgment, unjust in their discrimination against, and in the degrading and oppressive conditions imposed upon the Chinese now in this country, to which no other resident aliens are subjected; as dishonorable to our own government and insulting to that of China; and as tending to put in peril the missionary work which the Reformed Church has been successfully prosecuting in China for more than fifty years, and to Jeopardize possibly the lives of all American citizens in China.

with an irregular movement in values. While of ward, the largest fluctuations in either direction were due to local or special causes. American Sugar Refining and Distilling and Cattle Feeding led the list in point of activity, the former being in demand on the theory that the company had again become a heavy money-lender, while the again become a heavy money-lender, while the latter owed its strength to the reports of a satisfactory termination of the negotiations with the American Distributing Company. Reading was bought in the belief that the receivers would be able either to pay or to renew the Speyer loan, but Mr. Solomon, of Speyer & Co., assured a Tribune reporter that he knew of nothing to justify the confidence, and added that they expected to sell the company's collaterals to-morrow as advertised Chicago Gas was also strong. Atchison shower weakness, under heavy sales, on adverse reports from London, which were promptly and positively denied by President Reinhart.

The reluctance with which Wall Street gives up

its conviction that Congress will legislate favorably on silver was shown in the covering of shorts by many bear operators, who are evidently afraid to risk a squeeze, in spite of the deadlock in the Sen-ate and the failure of the repeal leaders to force a vote last week.

Money was plentiful and in small demand by

those who had acceptable collateral to offer for it On call it dropped to 11/2 per cent, and on time loans the quotations were 4 per cent for thirty days and 4% per cent for sixty to ninety days.

The Clearing House loan committee cancelled \$1,220,000 certificates, reducing the outstanding issue \$1,220,000 certificates, reducing the outstanding issue to \$5,985,000, which will probably be wiped out this week. In Boston only \$100,000 are outstanding. The wisdom of the New-York banks in resorting to the issue of loan certificates in the time of stress is most conclusively proved now by their present condition. With less than \$7,000,000 certificates still outstanding, a large majority of the banks belonging to the Clearing House Association hold reserves ranging from 20 per cent to over 50 per cent, while only eight members of the association have failed to bring their reserves above the legal requirement of 25 per cent, and of these seven are State banks. The market for sterling exchange was quiet, with posted rates unchanged.

ONE WAY OF HELPING CREDITORS.

The Sheriff has received an attachment for \$8,000 against Hugo Martin, importer of glycerine gelatine, cocoa butter, etc., at No. 19 Whitehall-st., in favor of Eggers & Henlein, on a draft from Hamburg, Germany. It was granted on the ground that Mr. Martin had left the city to defraud credltors. The firm had received a letter from him from Boston, in which he said he could not meet ac-ceptances for \$14,000 confing due, and it was no use with the German-American Bank, and had put goods in a storage warehouse for loans, and the goods, he thought, ought to realize \$6,000 over the advances. The Sheriff locked up Mr. Martin's office last week on an attachment for \$3,890 in favor of Philip Bauer & Co. against Henry Martin, and it is said there is some doubt as to whether his correct name is Henry or Hugo.

CANDA & KANE'S CREDITORS MEET. A meeting of the creditors of Canda & Kane was were present, including men from Albany, Rondou and Kingston, brick manufacturers along the Hud-son River, and at Philadelphia. A rough statement of the firm's affairs showed liabilities, \$69,356; assets, \$493,109, including real estate equities, stock, nets, \$493,100, including real estate equities, stock, plant, accounts and bills receivable and bank stock. The statement did not include the individual assets of the partners, and a creditor wanted to know what had become of these assets, but his question was not answered. The meeting was unsatisfactory for the creditors, and a committee of three will make an investigation of the firm's affairs.

Block Island. At 2:30 she was run down by the four-master Bayard Barnes, from Newport News for Providence. The Barnes struck the smack on the port quarter, smashing in the sheathing and ribs of the Laura Louise. Through the break the water poured, and the smack, brushed to one side by the Barnes, swung helplessly up into the wind. The five men on the smack saw that it would soon sink, and rushed for the small boat, but found three-masted schooner General S. E. Merwin was the side of the smack just as she pointed her bowsprit upward and went down stern first. Ten seconds later and the loss of the Laura Louise would have been accompanied by a drowning catas-trophe. The rescued men lost everything but the clothes on their backs. They came up the bay on the Merwin and were landed at Fox Point this afternoon.
